Ms. Becky Wahlgreen  
Director of Human Resources  
Board of Commissioners  
Central Arkansas Water  
Post Office Box 1789  
Little Rock, Arkansas 72203-1789

Re: Application to Fill Board Vacancy

Dear Ms. Wahlgreen:

Please accept this application for the current board vacancy.

***Personal Information:***

Robert Stanley Jorgensen  
12260 Rivercrest Drive  
Little Rock, Arkansas 72212-1496  
Telephone: (501) 227-7174  
E-mail: sjorgensen@eccci.com  
Male, age 58

***Employment:***

Engineering, Compliance & Construction, Inc.  
415 North McKinley, Suite 1180  
Little Rock, Arkansas 72205  
Telephone: (501) 663-8247

***Summary of Interests and Qualifications:***

- Little Rock resident since 1987;
- Homeowner at current address since 1992;
- President of a Little Rock environmental engineering firm since its formation in 1993;

Ms. Becky Wahlgreen

July 25, 2008

Page 2

- Member of the Board of Directors of the Arkansas Environmental Federation since 1987, past President (1994), Chairman of the Air Committee;
- Member of multiple environmental groups;
- Previous experience includes Chief of Hazardous Materials for the United States Environmental Protection Agency, Region VI, and Director of Waste Management Programs for the Missouri Department of Natural Resources;
- Active with the Little Rock Chamber of Commerce in locating new industrial facilities to Little Rock; and
- Served as a technical advisor to Metroplan's Board of Directors for Central Arkansas Clean Air Act issues.

My principal role within ECCI during the last few years has been to assist industries in planning to deal with air emissions, water supply, and wastewater treatment related to facility modifications, or the establishment of new facilities.

I am interested in providing employment opportunities while protecting central Arkansas' environmental quality. I am very involved with multiple projects related to alternative fuels, including biodiesel and other biofuels. In 2007, ECCI was recognized by the Cherokee National as Indian-owned and we are now working on infrastructure projects with Native American tribes.

*References:* The individuals listed below are familiar with my qualifications, skills and ethics. They have not been alerted to this application.

Teresa Marks, Esq.  
Director  
Arkansas Department of Environmental Quality  
Telephone: (501) 682-0744

Randy Thurman  
Executive Director  
Arkansas Environmental Federation  
(501) 374-0263

Joey Dean  
Vice President of Economic Development  
Little Rock Chamber of Commerce  
(501) 377-6606

**R. STAN JORGENSEN**  
*Principal*

**EDUCATION**

University of Oklahoma, College of Engineering, BS Environmental Science, 1973

**REGISTRATION**

Registered Environmental Property Assessor  
Registered Environmental Manager

**PROFESSIONAL HISTORY**

ECCL, President, 1993 to Present

ENSCO, Director of Regulatory Affairs, 1987 - 1993

Missouri Department of Natural Resources, Director of Waste Management Programs, 1983 - 1987

U.S. Environmental Protection Agency, Chief of Hazardous Materials and Environmental Engineer, 1973 - 1983

**EXPERIENCE**

Mr. Jorgensen has over 30 years of environmental and engineering experience. He has participated in hundreds of public hearings, many significantly controversial, as a hearing officer while with EPA and the State of Missouri, as the applicant while with ENSCO, and as an expert witness since forming ECCL. He has helped author state and federal rules and currently assists clients obtain workable permit requirements. He helps facility managers plan ahead for new environmental requirements by providing alternatives where facility managers can make advance choices and then fit the most cost effective choices into budget planning cycles. He has helped both multiple facility organizations and single facilities develop workable in-house environmental compliance programs and procedures. He has managed large engineering and acquisition projects.

While with EPA, Mr. Jorgensen studied European hazardous waste treatment technologies and became the senior EPA official in deciding to authorize the first PCB incinerators in the world. He helped develop the first state hazardous waste program to be approved by EPA. He was awarded two U.S. Bronze Medals for exceptional service to government and the environment.

As director of Missouri's waste management programs, Mr. Jorgensen eliminated a multi-year backlog in processing solid waste permit applications, negotiated approximately 20 Superfund cleanups, collected a \$1.2 million hazardous waste penalty, and helped manage the buy-out of Times Beach, Missouri. He served as a board member for the Association of State Waste Management Directors.

As environmental director of an international hazardous waste treatment company, Mr. Jorgensen managed several controversial media sensitive permitting and compliance processes. He served as a member of the Board of Directors of the industry national trade association serving as president for two years, and was named to multiple EPA regulatory advisory committees and roundtables.

Since starting ECCL, he has focused on regional and national Clean Air Act implementation issues (ozone, interstate NO<sub>x</sub> transport, Title V permitting, MACT rules development and implementation, and state air toxics programs). He has helped multiple national companies establish efficient systems to manage Clean Air Act compliance and he provides valuable assistance in acquisition projects by helping define anticipated costs and liabilities under the Clean Air Act and hazardous waste laws.

**State Air Rule Development.** Assists industries with negotiation of flexible state air rules and state implementation plans submitted to EPA. Chairman of the Arkansas Environmental Federation's Air Committee. Technical expert for the Central Arkansas Ozone Task Force.

**Winthrop Rockefeller Foundation,** assistance to industries in Clean Air Act compliance. Provided classroom and on-site facility specific guidance in cost-effective approaches to new Clean Air Act requirements to over 200 industries. Serve as technical environmental engineering expert for multiple Winrock projects.

**ECCL Compliance Assistance Programs.** Developed sophisticated computer tracking program to allow ECCL to track client's reporting and compliance deadlines to provide early reminders to clients to assure reports and compliance deadlines are successfully achieved.

**Environmental Due Diligence, USA and International.** Assisted domestic and international corporations in assessment of liabilities and opportunities associated with facilities and corporation purchases. Areas range from specialty chemical manufacturers, to hazardous waste treatment companies, to large urban developments.

**EPA Rulemaking, Washington, D.C.** Represented multiple industries to assist EPA regulation authors in evaluation of complex and potentially costly alternatives to achieve stricter environmental goals. Appointed to EPA's Hazardous Waste Combustion Roundtable and EPA Region VI's Policy Advisory Committee.

**Hazardous Waste Incineration Facilities, Technical Assistance, Worldwide.** Three European trips, Mexico, and throughout the U.S. Provide assistance on facility materials management, cost control, process systems, etc.

**AFFILIATIONS**

Environmental Technology Council, *President* 1994 - 1996

Arkansas Environmental Federation,

*Air Committee Chairman*, 2004 - 2008, 1995 - 2001

*Board of Directors*, 1987 - Present

*Government Affairs Chairman*, 2001 - 2003

*President* 1994

Numerous Environmental, Wildlife and Civic Organizations

Member EPA Hazardous Waste Combustion Roundtable

Registered Environmental Manager, #8785

Registered Environmental Property Assessor, #5865

Assoc. of State Waste Mgmt Directors, Board of Directors. 1981 - 1983

Central Arkansas Ozone Policy Advisory Committee, 2002 - 2003

Awarded two U.S. Bronze Medals for exceptional environmental service
